Travel Certificate

Certification to carry metex[®] penn/metex[®]
(methotrexate) pre-filled pens/syringes
for medical treatment.

medac

- metex[®] penn/metex[®] is a ready-to-use pre-filled pen/syringe and has to be taken once a week.
- metex[®] penn/metex[®] should not be frozen or stored above 25°C.

The contents of the glass pen/syringe are not under pressure and therefore bear no risk during flights.

metex[®] penn/metex[®] should always be kept in your hand luggage when traveling by plane.
